

## Bridges Renewal Program Round Three

Projects as at February 2021

State	Project Name	Project Description	Total AGC	Total Project Progress Cost Status	Category	Number of facilities
ACT	Tuggeranong Parkway - Bridges 4003 and 4004 Upgrade	Upgrade two bridges on the Tuggeranong Parkway by increasing the load limit from 44T to 68T.	\$2,300,000	\$4,600,000 Completed	Bridge	2
NSW	Armidale Regional Council - Abington Bridge Upgrade	Upgrade the bridge increasing the load limit from 25T to 44T.	\$52,405	\$363,001 Completed	Bridge	1
NSW	Armidale Regional Council - Boundary Creek Bridge Upgrade	Upgrade a one lane timber bridge to increase the load limit from 5T to 44T.	\$119,265	\$363,118 Completed	Bridge	1
NSW	Armidale Regional Council - Hiscox Bridge Upgrade	Upgrade a one lane timber bridge increasing the load limit from zero to 44T.	\$38,270	\$293,936 Completed	Bridge	1
NSW	Armidale Regional Council - Maiden Creek Bridge Upgrade	Upgrade a one lane wooden bridge increasing the load limit from 0 to 44T.	\$54,178	\$258,612 Completed	Bridge	1
NSW	Armidale Regional Council - Pipeclay Gully Bridge Upgrade	Upgrade a one lane timber bridge increasing the load limit from 0 to 44T.	\$95,530	\$201,472 Completed	Bridge	1
NSW	Armidale Regional Council - Station Creek Bridge Upgrade	Upgrade a one lane timber bridge increasing the load limit from 0 to 44T.	\$76,660	\$266,965 Completed	Bridge	1
NSW	Wollondilly Shire Council - Cedar Creek Road Matthews Ck Bridge Replacement	Replace and widen a one lane with a two lane concrete bridge increasing the load limit from 44T to 166T.	\$480,095	\$997,799 Completed	Bridge	1
NSW	Wingecarribee Shire Council - Braemar Ave Culvert Replacement, Braemar	Replace and widen a culvert and pedestrian pathway maintaining the 166T load limit.	\$621,570	\$1,326,559 Completed	Bridge	1
NSW	Walgett Shire Council - Goangra Bridge Replacement	Replace a one lane timber bridge with a two lane concrete bridge, increasing the load limit from 50T to 166T.	\$605,000	\$1,210,000 Underway	Bridge	1
NSW	Walcha Council - Wollun Road Bridge Replacement	Replace a one lane timber bridge with a two lane concrete bridge increasing the load limit from 12T to 166T.	\$311,375	\$815,691 Completed	Bridge	1
NSW	Upper Lachlan Shire Council - Kiamma Creek Bridge Upgrade	Replace and widen a single lane timber bridge with a two lane concrete culvert bridge and associated roadworks. New structure is to maintain the load limit of 166T.	\$450,000	\$1,062,460 Underway	Bridge	1
NSW	Tweed Shire Council - Byrill Creek Road Bridge Replacement	Replace and widen an existing one lane timber bridge with an elevated two lane concrete bridge increasing the load limit from 33T to 166T.	\$1,617,892	\$3,235,785 Completed	Bridge	1
NSW	Temora Shire Council - Trungley Hall Road Culvert Replacement	Replace and widen a two lane culvert increasing the load limit from 16T to 166T.	\$195,975	\$391,950 Completed	Bridge	1
NSW	Tamworth Regional Council - Middlebrook Creek Bridge 2 Replacement	Replace the one lane timber bridge with a one lane concrete bridge increasing the load limit from 5T to 68T.	\$406,609	\$813,218 Completed	Bridge	1
NSW	Tamworth Regional Council - Middlebrook Creek Bridge 1 Replacement	Replace the one lane timber bridge with a one lane concrete bridge increasing the load limit from 15T to 68T.	\$173,811	\$469,884 Completed	Bridge	1
NSW	Shoalhaven City Council - Crookhaven River Bridge Upgrade	Strengthen the bridge increasing the load limit from 30T to 166T.	\$396,000	\$793,000 Completed	Bridge	1

## Bridges Renewal Program Round Three

Projects as at February 2021

State	Project Name	Project Description	Total AGC	Total Project Progress Cost Status	Category	Number of facilities
NSW	Queanbeyan- Palerang Regional Council - Silver Hills Bridge Replacement	Replace and widen a one lane timber bridge with a two lane box culvert increasing the load limit from 50T to 68T.	\$362,615	\$929,299 Completed	Bridge	1
NSW	Port Macquarie-Hastings Council - Dunbogan Bridge Upgrade	Strengthen all 36 piers of the two lane bridge increasing the load limit from 57T to 166T.	\$1,500,000	\$3,000,000 Completed	Bridge	1
NSW	Narrabri Shire Council - Bullawa Creek Bridge Replacement	Replace and widen a one lane timber bridge with a two lane concrete bridge increasing the load limit from 10T to 166T.	\$668,422	\$1,336,844 Completed	Bridge	1
NSW	Nambucca Shire Council - Lanes Bridge Replacement	Replace and widen a two lane timber bridge with a two lane concrete bridge increasing the load limit from 44T to 166T.	\$1,000,000	\$2,745,425 Completed	Bridge	1
NSW	Murray River Council - Yarrein Creek Bridge Replacement	Replace and widen a single lane timber bridge with a two lane concrete bridge increasing the load limit from 2T to 166T.	\$394,400	\$821,982 Completed	Bridge	1
NSW	Murray River Council - Merran Creek Bridge Replacement	Replace and widen a single lane timber bridge with a two lane concrete bridge increasing the load limit from being closed to 166T.	\$399,400	\$801,160 Completed	Bridge	1
NSW	Mid-Western Regional Council - Goodiman Bridge Replacement	Replace and widen a one lane bridge of timber/concrete/steel construction with a two lane concrete bridge increasing the load limit from 5T to 166T.	\$307,500	\$741,000 Completed	Bridge	1
NSW	Mid Coast Council - Wards River Bridge Replacement	Replace and widen a single lane timber bridge with a two lane concrete bridge increasing the load limit from 8T to 160T.	\$660,000	\$1,320,000 Completed	Bridge	1
NSW	Mid Coast Council - Reltons Bridge Replacement	Replace and widen a single lane timber bridge with a two lane concrete bridge increasing the load limit from 4T to 160T.	\$425,000	\$854,700 Completed	Bridge	1
NSW	Mid Coast Council - Possum Brush Road Bridge No 2 Replacement	Replace and widen a single lane timber bridge with a two lane concrete bridge increasing the load limit from 16T to 160T.	\$315,000	\$630,300 Completed	Bridge	1
NSW	Mid Coast Council - Milbai Creek Bridge Upgrade	Replace and widen a single lane timber bridge with a two lane concrete bridge increasing the load limit from 13T to 160T.	\$260,000	\$818,934 Completed	Bridge	1
NSW	Mid Coast Council - McQueen Bridge Replacement	Replace and widen a single lane timber bridge with a two lane concrete bridge increasing the load limit from 13T to 160T.	\$800,000	\$1,600,500 Completed	Bridge	1
NSW	Mid Coast Council - Little Cedar Party Ck Bridge Replacement	Replace and widen a single lane timber bridge with a two lane concrete bridge increasing the load limit from 30T to 160T.	\$350,000	\$701,800 Completed	Bridge	1
NSW	Mid Coast Council - Kundle Creek Bridge Replacement	Replace and widen a single lane timber bridge with a two lane concrete bridge increasing the load limit from 8T to 160T.	\$400,000	\$806,300 Completed	Bridge	1
NSW	Mid Coast Council - Emu Creek Bridge Replacement	Replace and widen a two lane timber bridge with a two lane concrete bridge increasing the load limit from 18T to 160T.	\$750,000	\$1,501,500 Completed	Bridge	1
NSW	Mid Coast Council - Diamond Bridge Replacement	Replace and widen a single lane timber bridge with a two lane concrete bridge increasing the load limit from 7T to 160T.	\$400,000	\$800,800 Completed	Bridge	1
NSW	Mid Coast Council - Cedar Creek Bridge Replacement	Replace and widen a single lane timber bridge with a two lane concrete bridge increasing the load limit from 4T to 160T.	\$275,000	\$1,135,621 Completed	Bridge	1
NSW	Mid Coast Council - Burrell Creek Bridge Replacement	Replace and widen a single lane timber bridge with a two lane concrete bridge increasing the load limit from 8T to 160T.	\$800,000	\$1,600,500 Completed	Bridge	1
NSW	Mid Coast Council - Bulga Creek Bridge Replacement	Replace and widen a single lane timber bridge with a two lane concrete bridge increasing the load limit from 30T to 160T.	\$600,000	\$1,229,532 Completed	Bridge	1

## Bridges Renewal Program Round Three

Projects as at February 2021

State	Project Name	Project Description	Total AGC	Total Project Progress Cost Status	Category	Number of facilities
NSW	Mid Coast Council - Bobin Creek Bridge Replacement	Replace and widen a single lane timber bridge with a two lane concrete bridge increasing the load limit from 44T to 160T.	\$800,000	\$1,799,035 Completed	Bridge	1
NSW	Lachlan Shire Council - Island Creek Bridge Replacement	Replace and widen a one lane wooden bridge with a two lane modular steel truss bridge increasing the load limit from 10T to 166T.	\$295,000	\$590,000 Completed	Bridge	1
NSW	Kyogle Council - Mulcahys Bridge Replacement, Needhams Road	Replace and widen a single lane timber bridge with a one lane steel and concrete bridge increasing the load limit from 25T to 166T.	\$435,000	\$944,429 Completed	Bridge	1
NSW	Kyogle Council - Hanleys Bridge Replacement	Replace and widen a one lane timber bridge with a two lane concrete and steel bridge ensuring the 166T load limit is maintained.	\$398,000	\$796,000 Completed	Bridge	1
NSW	Kyogle Council - Afterlee Road Bridge Replacement	Replace and widen a one lane timber bridge with a two lane steel truss bridge ensuring the maintenance of 166T load limit.	\$311,500	\$745,839 Completed	Bridge	1
NSW	Kempsey Shire Council - Turners Flat Bridge Replacement	Replace and widen a one lane timber bridge with a two lane concrete bridge increasing the load limit from 15T to 166T.	\$1,995,615	\$3,991,230 Completed	Bridge	1
NSW	Hilltops Council - Burrangong Creek Bridge Duplication	Duplicate and widen a two lane bridge increasing the load limit from 64T to 68T.	\$573,568	\$1,147,137 Planned	Bridge	1
NSW	Hilltops Council - Bundarbo Road Bridge Replacement	Replace and widen a single lane bridge with a two lane bridge and increasing the load limit from 58T to 166T.	\$4,672,537	\$9,445,075 Planned	Bridge	1
NSW	Byron Shire Council - Blindmouth Creek Crossing Replacement	Replace and widen an existing causeway with a new culvert and road approaches to maintain 166T access.	\$570,275	\$1,142,174 Completed	Bridge	1
NSW	Byron Shire Council - Bridges for the Bangalow Agricultural Area Replacements (5)	Replace five one lane timber bridges with five steel bridges increasing the load limit from 3-15T to 44T on all bridges.	\$2,588,907	\$5,630,991 Completed	Bridge	5
NSW	Eurobodalla Shire Council - Cullendulla Drive Long Beach Culvert Upgrade	Upgrade and widen the existing culvert to maintain the existing 68T capacity and extending the useful life by 100 years.	\$202,021	\$404,407 Completed	Bridge	1
NSW	Goulburn Mulwaree Council - Nadigigomar Creek Bridge Replacement	Replace and widen a culvert with a two lane concrete bridge increasing the load limit from 44T to 68T.	\$712,807	\$1,780,232 Completed	Bridge	1
NSW	Glen Innes Severn Council - Polhill Road Bridge Replacement	Replace and widen a one lane timber bridge with a one lane concrete bridge maintaining the 166T load limit.	\$292,000	\$592,000 Completed	Bridge	1
NSW	Clarence Valley Council - Endless Creek Bridge Replacement	Replace and widen a single lane timber bridge with a two lane concrete bridge increasing the load limit from 42T to 166T.	\$505,067	\$1,010,135 Completed	Bridge	1
NSW	Cessnock City Council - Whitings Bridge Replacement	Replace and widen a one lane wooden bridge with a two lane concrete bridge maintaining the 166T capacity.	\$437,460	\$874,921 Completed	Bridge	1
NSW	Cessnock City Council - Paynes Crossing Bridge Replacement	Replace a one lane timber bridge with a two lane concrete bridge to increase the load limit from 6T to 166T.	\$667,700	\$1,335,400 Underway	Bridge	1
NSW	Coffs Harbour City Council - Bardens Bridge Replacement	Replace a one lane timber bridge with a two lane concrete bridge maintaining the load limit of 42T.	\$225,000	\$456,610 Completed	Bridge	1
NSW	Clarence Valley Council - Pullalologalong Bridge Replacement	Replace and widen a single lane timber bridge with a two lane concrete bridge increasing the load limit from 42T to 166T.	\$376,806	\$753,614 Completed	Bridge	1

## Bridges Renewal Program Round Three

Projects as at February 2021

State	Project Name	Project Description	Total AGC	Total Project Progress Cost Status	Category	Number of facilities
NSW	Canterbury Bankstown Council - Wolumba Street Bridge Upgrade	Upgrade and widen a one lane bridge with a two lane bridge increasing the load limit from 3T to 48T.	\$1,752,296	\$3,504,592 Underway	Bridge	1
NSW	Canterbury Bankstown Council - Hector Street Bridge Upgrade	Widen a two lane bridge to maintain 166T load limit, extending the useful life by 100 years.	\$1,921,634	\$3,843,268 Underway	Bridge	1
NSW	Campbelltown City Council - Wedderburn Causeway/Bridge Replacement	Replace and widen an existing low level causeway with a new two lane concrete bridge and reconstruction of approach roads increasing the load limit from 42T to 160T.	\$1,629,075	\$3,316,000 Completed	Bridge	1
NSW	Brewarrina Shire Council - Replacement of Muckerawa and Dumble Bridges on Goodooga Road	Replace two existing (one lane at Muckerawa and two lanes at Dumble) concrete bridges with two lane concrete bridges and increasing the load limit from 42T to 166T.	\$1,701,792	\$3,403,584 Underway	Bridge	2
NSW	Brewarrina Shire Council - Birrie Bridge Replacement	Replace a one lane timber bridge with a two lane concrete bridge and approach realignment, increasing the load limit from 5T to 166T.	\$2,109,175	\$4,218,350 Completed	Bridge	1
NSW	Blayney Shire Council - Browns Creek Road Bridge Replacement	Replace and widen a one lane timber bridge with a two lane concrete bridge increasing the load limit from 10T to 166T.	\$745,000	\$2,233,260 Completed	Bridge	1
NSW	Bellingen Shire Council - Deep Creek Bridge Replacement	Replace and widen a one lane timber bridge with a two lane steel and concrete bridge increasing the load limit from 25T to 50T.	\$645,000	\$1,512,492 Underway	Bridge	1
NSW	Bega Valley Shire Council - Gowing Creek Bridge Upgrade	Upgrade a timber bridge maintaining the load limit of 166T.	\$53,055	\$106,111 Completed	Bridge	1
NSW	Bega Valley Shire Council - Galba Creek Culvert Upgrade	Upgrade a two lane culvert maintaining the load limit of 166T extending the useful life from 50 years to 100 years.	\$48,000	\$96,005 Completed	Bridge	1
NSW	Bega Valley Shire Council - Brockelos Creek Bridge Upgrade	Upgrade a one lane concrete bridge extending the useful life by approximately 100 years, maintaining the 166T load limit.	\$37,200	\$442,343 Completed	Bridge	1
NSW	Bega Valley Shire Council - Bermagui River Bridge Upgrade	Upgrade a two lane bridge maintaining the load limit of 166T, extending the useful life by 100 years.	\$60,500	\$121,782 Completed	Bridge	1
NSW	Armidale Regional Council - Wollomombi River Bridge Upgrade	Replace existing timber structure with two lane reinforced concrete structure.	\$156,325	\$634,169 Completed	Bridge	1
NSW	Blayney Street Overbridge Replacement	Replace a one lane wooden bridge with a two lane concrete bridge increasing the load limit from 5T to 160T.	\$1,288,925	\$2,899,619 Completed	Bridge	1
NSW	Range Road Overbridge Replacement	Replace a two lane steel bridge extending the useful life by 100 years and increasing the load limit from 5T to 160T.	\$1,191,850	\$2,383,700 Underway	Bridge	1
NSW	Charleyong Bridge Replacement	Replace a single lane timber bridge with a two lane concrete bridge increasing load limit from 50T to 166T.	\$5,000,000	\$23,000,000 Underway	Bridge	1
NT	East Arnhem Regional Council - Angurugu River Bridge Upgrade	Upgrade bridge by replacing 115m of existing substandard guardrail barrier protection maintaining a 166T load limit.	\$49,500	\$99,242 Completed	Bridge	1
NT	Tablelands Highway- Upgrade of Five Bridges	Strengthen five one lane bridges increasing the load limits from various low tonnage to 166T.	\$4,957,266	\$9,914,532 Completed	Bridge	5
QLD	Toowoomba Regional Council - CU023 Mally Road Culvert Replacement	Replace and widen the culvert maintaining a load limit of 90T.	\$350,150	\$725,131 Completed	Bridge	1

## Bridges Renewal Program Round Three

Projects as at February 2021

State	Project Name	Project Description	Total AGC	Total Project Progress Cost Status	Category	Number of facilities
QLD	Toowoomba Regional Council - BR298 Post Office Road Culvert Replacement	Replace and widen a culvert increasing the load limit from 90T to 166T.	\$354,250	\$762,284 Completed	Bridge	1
QLD	Toowoomba Regional Council - BR217 Emu Creek Hall Rd Bridge Replacement	Replace and widen a single lane timber bridge with a concrete bridge increasing the load limit from 90T to 166T.	\$363,550	\$1,306,425 Completed	Bridge	1
QLD	Tablelands Regional Council - Leslie Creek Bridge Replacement	Replace and widen a single lane timber bridge with a two lane concrete bridge maintaining a 44T load limit.	\$591,767	\$1,183,534 Completed	Bridge	1
QLD	Southern Downs Regional Council - Palmer Bridge Replacement	Replace and widen a single lane timber bridge with a two lane concrete bridge increasing the load limit from 42.5T to 166T.	\$1,234,412	\$2,468,824 Completed	Bridge	1
QLD	Somerset Regional Council - Yellow Gully Bridge Replacement	Replace a single lane concrete bridge with a two lane concrete bridge, increasing the load capacity from 33T to 166T, extending the useful life from 58 years to 100 years, allowing for improved heavy vehicle access and the removal of a potential 9 kilometre detour.	\$654,968	\$1,309,937 Completed	Bridge	1
QLD	Somerset Regional Council - Western Branch Road Bridges (x2) Replacement	Replace two single lane timber bridges with two double lane concrete bridges located 1.6 kilometres apart on Western Branch Road, increasing their load limits from 22T to 166T.	\$298,206	\$596,412 Completed	Bridge	2
QLD	Somerset Regional Council - Shallcross Bridge Replacement	Replace, widen and realign a one lane concrete bridge with a two lane concrete bridge maintaining the current 166T limit.	\$606,574	\$1,225,043 Completed	Bridge	1
QLD	Somerset Regional Council - Sandy Creek Culvert Replacement	Replace and widen a two lane culvert with a two lane bridge increasing the load limit from 8T to 166T.	\$497,550	\$1,149,799 Completed	Bridge	1
QLD	Somerset Regional Council - Pryde Creek Bridge Replacement	Replace and widen a single lane timber bridge with a single lane concrete bridge increasing the load limit from 8T to 166T.	\$520,212	\$1,040,424 Completed	Bridge	1
QLD	Somerset Regional Council - Pakleppas Bridge Replacement	Replace and widen a one lane timber bridge with a one lane concrete bridge, increasing the load capacity from 8T to 166T (unrestricted), extending the useful life for an unspecified number of years, allowing for improved community access, heavy vehicle access, and improved safety.	\$118,170	\$236,340 Completed	Bridge	1
QLD	Somerset Regional Council - Hawthorne Road Bridge Replacement	Replace and widen a one lane timber bridge with a concrete bridge increasing the load limit from 8T to 166T.	\$194,319	\$388,639 Completed	Bridge	1
QLD	Somerset Regional Council - Buaraba Creek Road Bridges (x2) Replacement	Replace two single lane timber bridges located on Buaraba Creek Road with two single lane concrete bridges, increasing the load limit from 22T to 166T, extending the useful life by 100 years, allowing for improved community access.	\$255,246	\$510,494 Completed	Bridge	2
QLD	Somerset Regional Council - Apple Tree Creek Bridge Replacement	Replace and widen a one lane timber bridge with a concrete bridge, increasing the load limit from 22T to 166T.	\$267,509	\$535,018 Completed	Bridge	1
QLD	Scenic Rim Regional Council - Sharp Bridge Replacement	Replace and widen a one lane timber bridge with a two lane concrete bridge increasing the load limit from 43T to 166T.	\$2,336,179	\$4,672,358 Completed	Bridge	1
QLD	Scenic Rim Regional Council - S Todd Bridge Replacement	Replace and widen a one lane wooden bridge with a two lane concrete bridge increasing the load limit from 43T to 166T.	\$1,783,100	\$3,566,200 Completed	Bridge	1

## Bridges Renewal Program Round Three

Projects as at February 2021

State	Project Name	Project Description	Total AGC	Total Project Progress Cost Status	Category	Number of facilities
QLD	Scenic Rim Regional Council - Josephville Bridge Replacement	Replace and widen a one lane timber bridge with a two lane concrete bridge increasing the load limit from 5T to 166T.	\$2,020,022	\$4,040,044 Completed	Bridge	1
QLD	Scenic Rim Regional Council - Ferguson Reserve Bridge Upgrade	Replace and widen a one lane timber bridge with a two lane concrete bridge increasing the load limit from 0 (closed to all traffic) to 166T.	\$1,702,190	\$3,404,380 Completed	Bridge	1
QLD	Scenic Rim Regional Council - Cavell Bridge Replacement	Replace and widen a one lane timber bridge with a two lane concrete bridge increasing the load limit from 0 (closed to all traffic) to 166T.	\$557,150	\$1,114,300 Completed	Bridge	1
QLD	Scenic Rim Regional Council - Brookland Bridge Replacement	Replace and widen a one lane timber bridge with a one lane concrete bridge increasing the load limit from 0 (closed to all traffic) to 166T.	\$1,044,245	\$2,456,895 Completed	Bridge	1
QLD	Scenic Rim Regional Council - Botan Creek Bridge Replacement	Replace and widen a two lane timber bridge with a concrete bridge increasing the load limit from 36T to 166T.	\$1,810,751	\$3,621,503 Completed	Bridge	1
QLD	Scenic Rim Regional Council - Back Creek Bridge Replacement	Replace and widen a two lane timber bridge with a concrete bridge, increasing the load limit from 43T to 166T.	\$2,252,059	\$4,504,119 Completed	Bridge	1
QLD	Rockhampton Regional Council - Hansens Bridge Replacement	Replace and widen a one lane timber bridge with a two lane culvert increasing the load limit from 10T to 70T.	\$463,250	\$881,336 Completed	Bridge	1
QLD	Rockhampton Regional Council - Bellingens Bridge Replacement	Replace and widen a one lane timber bridge with a one lane culvert increasing the load limit from 20T to 70T.	\$135,000	\$217,126 Completed	Bridge	1
QLD	Paroo Shire Council - Deep Creek Bridge Replacement	Replace and widen a one lane timber bridge with a two lane concrete bridge maintaining the 166T limit.	\$390,000	\$952,452 Completed	Bridge	1
QLD	North Burnett Regional Council - NBRC Percy Hindmarsh Bridge Replacement	Replace and widen a single lane concrete bridge increasing the load limit from 40T to 80T.	\$1,454,047	\$3,056,777 Completed	Bridge	1
QLD	Noosa Council - Orealla Bridge Upgrade	Replace and widen a two lane bridge increasing the load limit from 25T to 33T.	\$3,180,840	\$6,361,680 Completed	Bridge	1
QLD	Noosa Council - Old Noosa Road Bridge Replacement	Replace and widen a one lane timber bridge with a two lane concrete bridge increasing the load limit from 25T to 44T.	\$649,137	\$1,298,275 Completed	Bridge	1
QLD	Noosa Council - Mary River Road Bridge Replacement	Replace and widen a two lane bridge increasing the load limit from 15T to 166T.	\$978,436	\$1,956,872 Completed	Bridge	1
QLD	Mount Isa City Council - Isa Street Bridge Replacement	Replace a two lane concrete bridge with a wider bridge that will increase the load limit from 5T to 166T.	\$3,504,500	\$7,009,000 Completed	Bridge	1
QLD	Mareeba Shire Council - John Doyle Bridge Mareeba Replacement and Upgrade	Upgrade a two lane timber bridge by replacing the timber superstructure, deck and kerb, increasing the load limit from 5T to 44T.	\$539,000	\$1,079,000 Completed	Bridge	1
QLD	Logan City Council - Replacement of Scott Lane Culvert	Replace and widen a two lane steel culvert with a new two lane steel bridge extending the operational life of the bridge by 100 years, increasing the load limit from 20T to 166T.	\$1,500,000	\$4,500,000 Underway	Bridge	1
QLD	Livingstone Shire Council - Daly Creek Bridge Replacement	Replace and widen a one lane bridge with a two lane concrete culvert increasing the load limit from 10T to 50T.	\$425,150	\$916,432 Completed	Bridge	1

# Bridges Renewal Program Round Three

Projects as at February 2021

State	Project Name	Project Description	Total AGC	Total Project Progress Cost Status	Category	Number of facilities
QLD	Douglas Shire Council - Diggers Bridge Replacement Project	Replace and widen the existing one lane timber bridge with a two lane box culvert structure increasing the load limit from 20T to 85T.	\$1,020,576	\$1,867,152 Completed	Bridge	1
QLD	Cook Shire Council - King River Bridge Approaches Upgrade	Rehabilitate road slabs through Ground Engineering (grout engineering technique).	\$28,539	\$57,078 Completed	Bridge	1
QLD	Cook Shire Council - Claudie River Bridge Approaches Replacement	Rehabilitate road approach slabs through Ground Engineering (grout injection technique) to maintain the 166T load limit.	\$61,194	\$122,387 Completed	Bridge	1
QLD	Cloncurry Shire Council - Carl Katter Bridge Replacement	Replace a one-lane concrete bridge with a higher and wider new two-lane concrete bridge, for improved community and heavy vehicle access, extending the useful life by 100 years.	\$2,645,662	\$5,148,714 Completed	Bridge	1
QLD	Charters Towers Regional Council - Keelbottom Creek Bridge Replacement	Replace and widen a one lane bridge extending the useful life by 80 years and maintaining 166T load limit.	\$150,000	\$302,492 Completed	Bridge	1
QLD	Cassowary Coast Regional Council - Cowley Creek Bridge Replacement	Replace and widen a one lane bridge with a two lane concrete bridge, increasing the load limit from 38T to 166T.	\$304,563	\$609,125 Completed	Bridge	1
QLD	Bundaberg Regional Council - Smiths Creek (Stony Creek) Bridge Replacement	Replace and widen a one lane timber bridge with a two lane concrete culvert increasing the load limit from 16T to 166T. The waterway is officially gazetted as Stony Creek, and is also known as Smiths Creek (but not Smiths Crossing).	\$809,729	\$1,619,459 Completed	Bridge	1
QLD	Valentine Creek Bridge Replacement	Replace and widen a two lane timber bridge with a two lane concrete bridge increasing the load limit from 42T to 166T.	\$4,149,502	\$8,299,005 Completed	Bridge	1
QLD	Three Moon Creek Replacement	Replace and widen a two lane timber bridge with a two lane concrete bridge increasing the load limit from 62T to 166T.	\$5,000,000	\$18,000,000 Underway	Bridge	1
QLD	Lochaber Creek Bridge Replacement	Replace and widen a two lane timber bridge with a concrete bridge increasing the load limit from 62T to 166T.	\$4,883,918	\$6,543,196 Completed	Bridge	1
QLD	Bowen Road Bridge Upgrade	Strengthen a two lane concrete bridge to increase load limit from 26T to 46T.	\$5,000,000	\$11,008,626 Completed	Bridge	1
QLD	Beames Brook Bridge (John Yanner Milmarja Ngarnara Bridge) Replacement	Replace a one lane temporary steel bridge with a new two lane concrete bridge on Wills Developmental Road, 27 kilometres south of Burketown, increasing the load limit from 124T to 166T. Following completion, the new bridge was given a new name, which is John Yanner Milmarja Ngarnara Bridge.	\$4,250,786	\$8,501,572 Completed	Bridge	1
SA	Northern Areas Council - Broughton Valley Road Bridge Replacement	Replace and widen a one lane bridge with a two lane concrete bridge increasing the load limit from 45T to 166T.	\$192,096	\$394,771 Completed	Bridge	1
SA	Mid Murray Council - Eudunda Road Bridge Replacement	Replace a two lane concrete bridge increasing the load limit from 40T to 166T.	\$472,500	\$945,000 Completed	Bridge	1
SA	Mid Murray Council - Milendella Road Bridge Replacement	Upgrade and widen a two lane concrete bridge increasing the load limit from 40T to 166T.	\$174,432	\$387,626 Completed	Bridge	1
SA	City of Onkaparinga - Blewitt Springs Road Bridge replacement	Replace and widen two lane concrete bridge, increasing the load limit from "no safe limit" to 166T.	\$224,105	\$660,903 Completed	Bridge	1
SA	City of Onkaparinga - Meyer Road Bridge (Lonsdale) Upgrade	Upgrade the existing two lane bridge to maintain its 166T load limit.	\$3,386,020	\$7,100,000 Underway	Bridge	1

## Bridges Renewal Program Round Three

Projects as at February 2021

State	Project Name	Project Description	Total AGC	Total Project Progress Cost Status	Category	Number of facilities
SA	Clare and Gilbert Valleys Council - Morris Bridge Replacement	Replace and wooden one lane steel bridge with a two lane culvert increasing the load limit from 10T to 166T.	\$181,500	\$368,485 Completed	Bridge	1
SA	SEWCDB - Moyhall Road Culvert Replacement	Replace and widen a culvert to maintain the 166T load limit.	\$157,348	\$314,696 Completed	Bridge	1
SA	Skillies Bridge Upgrade	Upgrade and widen a two lane concrete bridge increasing the load limit from 45T to 166T.	\$537,500	\$1,075,000 Completed	Bridge	1
SA	Farrell Flat Road Bridge Replacement	Replace and widen a two lane concrete bridge increasing the load limit from 42T to 166T.	\$679,400	\$1,996,000 Completed	Bridge	1
SA	Farrell Flat Road Culvert Replacement	Replace and widen a two lane culvert with a two lane bridge, increasing the load limit from 42T to 166T.	\$907,500	\$1,815,000 Completed	Bridge	1
SA	Lyndoch Bridge Replacement	Replace and widen a two lane concrete bridge increasing the load limit from 42T to 166T.	\$695,000	\$1,390,000 Completed	Bridge	1
SA	Stott Highway Bridge Replacement	Replace and widen a two lane concrete bridge increasing the load limit from 44T to 166T.	\$556,000	\$1,112,000 Completed	Bridge	1
TAS	Sorell Council - Sunnyside Bridge Replacement	Replace, widen and realign a two lane wooden bridge with a two lane concrete bridge increasing the load limit from 44T to 166T and extending the useful life to 100 years.	\$1,105,664	\$2,211,328 Completed	Bridge	1
TAS	Northern Midlands Council - Woolmers Lane Bridge Replacement	Replace and widen a single lane wooden bridge with a two lane reinforced concrete bridge increasing the load limit from 44T to 166T and extending the useful life from 24 years to 100 years.	\$1,411,500	\$2,823,000 Completed	Bridge	1
TAS	Circular Head Council - Stoney Point Creek Bridge Replacement	Replace and widen a two lane concrete bridge maintaining the 166T load limit and extending the useful life to 100 years.	\$87,450	\$201,923 Completed	Bridge	1
TAS	Central Coast Council - Gawler River Bridge Replacement	Replace a single lane timber bridge with a two lane concrete bridge and increasing the load limit from 20T to 166T.	\$260,000	\$522,000 Completed	Bridge	1
TAS	Carlton River Bridge, Arthur Highway, Copping	Replace and widen two two lane concrete bridges (including associated approach road works) increasing the load limit from 68T to 166T.	\$2,078,257	\$4,303,056 Completed	Bridge	1
TAS	Doctors Creek Bridge Replacement	Replace and widen a two lane concrete bridge increasing the load limit from 42T to 166T.	\$998,300	\$3,426,911 Completed	Bridge	1
TAS	Wackett Creek Bridge Replacement	Replace and widen a two lane concrete bridge increasing the load limit from 68T to 166T.	\$1,207,300	\$3,664,861 Completed	Bridge	1
TAS	Zeehan Rivulet Bridge Replacement	Replace and widen two lane concrete bridge increasing the load limit from 68T to 166T.	\$523,794	\$1,226,036 Completed	Bridge	1
VIC	Wodonga City Council - Lawrence Street Bridge (Over House Creek) Upgrade	Upgrade the deck overlay on a two lane bridge and increasing the load limit from 36T to 160T.	\$733,173	\$1,466,346 Underway	Bridge	1
VIC	West Wimmera Shire Council - Dergholm-Edenhope Road Culvert Replacement	Replace and widen a culvert maintaining its 166T load limit.	\$75,454	\$150,909 Completed	Bridge	1
VIC	West Wimmera Shire Council - Ferres Creek Road Culvert Replacement	Replace and widen a culvert, maintaining its load limit of 166T.	\$73,326	\$146,652 Completed	Bridge	1

## Bridges Renewal Program Round Three

Projects as at February 2021

State	Project Name	Project Description	Total AGC	Total Project Progress Cost Status	Category	Number of facilities
VIC	West Wimmera Shire Council - Moree Bridge Upgrade	Replace and widen a culvert maintaining its 166T load limit.	\$274,011	\$548,023 Completed	Bridge	1
VIC	Wellington Shire Council - Stacey's Bridge Upgrade	Upgrade and widen a single lane to two lane bridge extending the useful life by an unspecified number of years, maintaining the 166T load limit.	\$320,750	\$648,399 Completed	Bridge	1
VIC	South Gippsland Shire Council - Bena Kongwak Road Bridge	Replace and widen a single lane timber bridge to a two lane concrete bridge increasing the load limit from 13T to 166T.	\$908,882	\$1,817,764 Completed	Bridge	1
VIC	Shire of Strathbogie - Avenel-Longwood Road Bridge Replacement	Replace and widen two lane timber bridge with a concrete bridge increasing the load limit from 20T to 166T and extending the useful life of the bridge by 120 years.	\$140,000	\$283,850 Completed	Bridge	1
VIC	Shire of Campaspe - Mt Terrick Road Bridge Upgrade	Upgrade a two lane (pre-stressed concrete deck planks) bridge increasing the load limit from 12T to 166T and upgrade the approaches to the bridge to align with the new bridge level.	\$55,050	\$154,992 Completed	Bridge	1
VIC	Shire of Campaspe - Fox Island Bridge Replacement	Replace and widen a one lane concrete, steel and timber bridge with a two lane concrete bridge, increasing the load limit from 2T to 166T. Widen and upgrade the approaches to the bridge and nearby intersections to align with the new wider bridge.	\$904,200	\$2,137,145 Completed	Bridge	1
VIC	Northern Grampians Shire Council - Richardson River Bridge Replacement	Replace a one lane bridge with two lane culverts increasing the load limit from 9T to 68T.	\$75,000	\$179,409 Completed	Bridge	1
VIC	Northern Grampians Shire Council - Concongella Creek Bridge Upgrade	Widen and strengthen a one lane bridge to a two lane bridge increasing the load limit from 12T to 68T.	\$230,000	\$460,000 Completed	Bridge	1
VIC	Moyne Shire Council - Duncans Bridge Upgrade	Upgrade a two lane bridge to increase the load limit from 30T to 166T.	\$350,000	\$735,500 Completed	Bridge	1
VIC	Mount Alexander Shire Council - Old Drummond Road Bridge Replacement	Replace a one lane timber bridge with a concrete bridge extending the useful life by 100 years, increasing the load limit from 5T to 166T.	\$325,000	\$650,000 Completed	Bridge	1
VIC	Moira Shire Council - Stewarts Road Three Bridges Replacement	Replace three timber bridges with concrete bridges extending the useful lives from 20, 37, and 40 years to 150 years and increasing the load limits from 5T, 8T, 20T to 166T.	\$950,000	\$1,900,000 Completed	Bridge	3
VIC	Mitchell Shire Council - Broadford-Pyalong Road Bridge Replacement	Replace a two lane concrete bridge increasing the load limit from 15T to 166T.	\$129,560	\$259,121 Completed	Bridge	1
VIC	Mansfield Shire Council - Howqua Track Culvert Replacement	Replace a one lane bridge with a culvert increasing the load limit from 6T to 60T.	\$137,500	\$277,057 Completed	Bridge	1
VIC	Macedon Ranges Shire Council - Deep Creek Culvert Upgrade	Upgrade a two lane galvanized steel culvert with concrete reinforcing ensuring its 166T load limit and extending its useful life from 10 to 100 years.	\$142,040	\$373,898 Completed	Bridge	1
VIC	Loddon Shire Council - Murphy's Creek Bridge Replacement	Replace a one lane timber and steel bridge with a two lane concrete bridge, extending the useful life by 100 years and increasing the load limit from 12T to 166T.	\$350,000	\$725,751 Completed	Bridge	1

## Bridges Renewal Program Round Three

Projects as at February 2021

State	Project Name	Project Description	Total AGC	Total Project Progress Cost Status	Category	Number of facilities
VIC	Horsham Rural City Council - Lower Norton Nurrabiel Rd Culvert Upgrade	Upgrade and widen a two lane culvert extending the useful life by an unspecified number of years, maintaining a 166T load limit.	\$50,000	\$102,410 Completed	Bridge	1
VIC	Glenelg Shire Council - Henty Creek Bridge Upgrade	Strengthen a two lane U-slab bridge increasing the load limit from 20T to 70T.	\$102,000	\$205,500 Completed	Bridge	1
VIC	Gannawarra Shire Council - Sampsons Bridge Replacement	Replace a two lane U-slab bridge with a two lane concrete bridge and increasing the load limit from 44T to 166T.	\$324,738	\$649,476 Completed	Bridge	1
VIC	East Gippsland Shire Council - Buchan River Bridge Replacement	Replace a one lane timber bridge with a two lane concrete bridge, extending the useful life to 100 years and maintaining the 166T load limit.	\$992,405	\$1,984,811 Completed	Bridge	1
VIC	City of Ballarat - Pickfords Road Bridge Replacement	Replace and widen a single lane concrete bridge with a two lane concrete bridge extending the useful life from 5-10 years to 100 years, maintaining the 166T load limit.	\$155,000	\$310,000 Completed	Bridge	1
VIC	City of Ballarat - Franklin Bridge Replacement	Replace and widen a one lane concrete bridge with a two lane concrete bridge increasing the load limit from 10T to 166T.	\$1,425,132	\$2,850,264 Completed	Bridge	1
VIC	Central Goldfields Shire Council - Porteous Road Bridge Replacement	Replace and widen a one lane bridge with a two lane concrete bridge and increasing the load limit from 20T to 160T.	\$500,000	\$1,008,341 Completed	Bridge	1
VIC	Cardinia Shire Council - Jolley Road Bridge Replacement	Construction of a one lane concrete bridge.	\$182,449	\$364,898 Completed	Bridge	1
VIC	Baw Baw Shire Council - Allambee Estate Road Bridges Replacement	Replace and widen three two lane concrete bridges increasing the load limits of 20T, 12T and 10T to 166T and extending the useful lives to 100 years.	\$520,000	\$1,040,000 Completed	Bridge	3
VIC	Ararat Rural City Council - Wimmera River Twin Bridges Replacement	Replace and widen twin one lane bridges with two lane concrete bridges and increasing the load limit from 10T to 166T.	\$750,000	\$1,606,860 Completed	Bridge	1
VIC	Alpine Shire Council - Victoria Bridge Upgrade	Upgrade the concrete structure by strengthening the crossheads to the bridge increasing the load limit from 25T to 50T.	\$88,750	\$217,947 Completed	Bridge	1
VIC	Alpine Shire Council - Roberts Creek Bridge Network Upgrade	Upgrade three bridges increasing the load limits from 30T to 55T.	\$150,524	\$301,049 Completed	Bridge	3
VIC	Bayside Road (Cowie Creek) Bridge SN6369 Upgrade(Southbound)	Strengthen a two lane bridge to increase the load limit from 50T to 166T.	\$819,500	\$1,639,000 Planned	Bridge	1
VIC	Bayside Road Bridge SN6370 Upgrade (two way)	Strengthen a two lane bridge to increase the load limit from 50T to 166T.	\$605,000	\$1,210,000 Planned	Bridge	1
VIC	Cowie Creek Bridge Upgrade (SN6371)	Strengthen and widen a two lane bridge increasing the load limit from 50T to 166T.	\$825,000	\$1,650,000 Planned	Bridge	1
VIC	Bayside Road Bridge SN6372 Upgrade (Northbound)	Strengthen and widen a two lane bridge increasing the load limit from 50T to 166T.	\$578,500	\$1,157,000 Planned	Bridge	1
VIC	Dookie-Nalinga Road Culvert Replacement	Replace a two lane culvert with a precast box culvert increasing the load limit from 62T to 68T.	\$135,000	\$271,732 Completed	Bridge	1
VIC	Maryborough-St Arnaud Road Culvert Replacement	Replace two culverts to increase their load limits from 68T to 166T	\$212,000	\$424,000 Completed	Bridge	1

## Bridges Renewal Program Round Three

Projects as at February 2021

State	Project Name	Project Description	Total AGC	Total Project Progress Cost Status	Category	Number of facilities
VIC	Moggs Creek Bridge Replacement	Replace a two lane concrete bridge increasing the load limit from 50T to 166T.	\$1,985,500	\$3,971,000 Completed	Bridge	1
VIC	Patho Creek Bridge Upgrade (Murray Valley Highway)	Strengthen and widen a two lane concrete bridge maintaining the load limit at 68T.	\$590,000	\$1,180,000 Completed	Bridge	1
VIC	Wye River Bridge Replacement	Replace and widen a two lane concrete bridge increasing load limit from 50T to 166T.	\$2,390,000	\$4,780,000 Planned	Bridge	1
WA	Shire of Capel - Preston River Bridge Replacement	Replace a single-lane timber bridge (3510A) with a wider new two-lane concrete bridge, increasing the load limit from 18T to 166T, extending the useful life from 10 years to 100 years, and allowing for improved community access, heavy vehicle access and safety. Located on Dardanup West Road, the bridge spans the Preston River between the Shire of Capel and the Shire of Dardanup.	\$1,803,891	\$3,607,783 Completed	Bridge	1
WA	City of Greater Geraldton - Hodgson Crossing Culvert Replacement	Replace a dual lane reinforced concrete culvert bridge on Yunin-Tenindewa Road, Tenindewa, to maintain the 166T load limit.	\$236,533	\$473,066 Completed	Bridge	1
WA	City of Gosnells - Nicholson Road Bridge Upgrade	Upgrade a two-lane concrete bridge, increasing the load capacity from 14T to 166T (unrestricted).	\$620,467	\$1,240,934 Completed	Bridge	1
WA	City of Cockburn - Spearwood Ave Bridge Duplication	Duplicate and widen a two lane bridge increasing the load limit from 72T to 144T.	\$2,500,000	\$5,046,080 Completed	Bridge	1
WA	City of Busselton - Causeway Road Bridge Duplication	Duplicate and widen the existing two lane concrete bridge increasing the number of lanes to four, maintaining the existing 166T load limit.	\$1,750,000	\$3,897,810 Completed	Bridge	1
WA	Williams Townsite Two Bridge Replacements	Replace two concrete bridges increasing the load limit from 20T to 166T.	\$5,000,000	\$11,993,000 Completed	Bridge	2
WA	Ashton Avenue Bridge Replacement	Replace a two lane timber bridge with a three lane concrete bridge increasing the load limit to 166T.	\$5,000,000	\$10,260,000 Completed	Bridge	1
