## South Australian Rural Roads Package

State/Territory: South Australia

Proposed AG funding: \$259.8 million

Mode	Major freight route	Major Commuter corridor	Commercial precinct
	✓	✗	✓

### PROBLEM DESCRIPTION

Improving key roads in our regions is vital to safety, improved connectivity to regional towns and our freight networks. The 2019-20 Budget commitment of \$259.8 million will help deliver these outcomes for South Australia. Rural and regional roads in South Australia currently experience constraints caused by lack of overtaking lane opportunities, poor shoulder sealing and pavement condition which is impacting on the productivity of freight movements and access to communities.

Projects funded under the South Australian Rural Roads Package include:

- Safety Package
- Victor Harbour Road duplication – Main South Road to McLaren Vale
- Horrocks Highway Corridor
- Thomas Foods Facility - supporting roadworks
- Dublin Saleyards access
- Naracoorte roundabouts
- Kroemers Crossing roundabout
- Bratten Bridge

This package of works will target critical areas of the regional and rural South Australian road transport network to improve pavement conditions, install overtaking lanes, improve access, provide shoulder sealing and upgrade road junctions. This package will be funded on an 80:20 basis with the South Australian Government.

### PROJECT BENEFITS

- **Improve road safety.**
- **Improve freight efficiency, connectivity and travel time.**
- **Improve economic activity.**
