**Infrastructure Investment Program**

**South Eastern Freeway Safety Upgrade**

**South Australia**

**Australian Government Funding:** $28 million

- South Australian Government contribution: $7 million
- Total: $35 million

**Project description**

Forming part of the National Land Transport Network, the South Eastern Freeway is the most direct road corridor between Adelaide and Melbourne. The South Eastern Freeway provides a vital link for the movement of freight between eastern and central Australia, and sees around 54,000 vehicles per day.

This project will repair failing pavement along the South Eastern Freeway between the Tollgate and Crafers to improve safety and efficiency for road users.

**Jobs supported**

- This project is expected to support 90 direct and indirect jobs, based on Australian Government estimates.

**Project benefits**

- Improved road safety for all road users.
- Improved efficiency and network reliability.

**Project timelines**

- This project is expected to start in early 2021 and be finished by mid 2021.
