BUILDING OUR FUTURE

Infrastructure Investment Program

Stacey Street Bankstown – Planning

New South Wales

Australian Government Funding: \$25.0 million

New South Wales Government contribution: \$25.0 million
Total: \$50.0 million

Project description

The project will provide funding to develop a Final Business Case for the upgrade of Stacey Street in Bankstown. The project forms part of the major north south movement corridor within Sydney. These sections are the last remaining four lane sections, with six lanes either side between the M4 and M5. The project includes planning for grade separation of Stacey Street and the Hume Highway, two major freight corridors.

Project benefits

- Improved road safety for all road users
- Reduced congestion and improved travel times
- Improved efficiency and network reliability
- Improved freight productivity
- Planning and design of future public works

Project timelines

- This project is expected to start in early 2022 and be finished by early 2023
