BUILDING OUR FUTURE

Infrastructure Investment Program

Athllon Drive Duplication
Australian Capital Territory

Australian Government Funding: \$46.67 million

ACT Government Contribution: \$46.67 million
Total: \$93.33 million

Project description

This project will involve the detailed design and duplication of Athllon Drive, between Hindmarsh Drive and Melrose Drive, and between Sulwood Drive and Drakeford Drive.

This project will complete the full duplication of Athllon Drive, one of the main north-south arterial roads in Canberra. It will reduce congestion and improve travel times for in excess of 14,000 vehicles that use this road per day, including rapid bus services and nearly 2,000 vehicles per hour in the peak periods. It will also improve safety and address the crash history on this road - with the number of rear-end collisions as a result of the congestion in the corridor.

Jobs supported

- This project is expected to support 299 direct and indirect jobs.

Project benefits

- Reduced congestion and improved travel times.
- Improved safety for all road users.
- Improved freight productivity.

Project timelines

- This project is expected to commence construction in mid-2023 and be completed by late 2026.
