

Australian Government

BUILDING OUR FUTURE

Infrastructure Investment Program

John Renshaw Drive - Planning
New South Wales

Australian Government Funding: \$12.0 million

New South Wales Government contribution: \$3.0 million
Total: \$15.0 million

Project description

This project involves scoping and development of upgrades to John Renshaw Drive including grade separation at the intersection of the M1 Motorway and Weakleys Drive, Beresfield.

There are currently major travel time delays along the corridors of the M1 Pacific Motorway, John Renshaw Drive, Weakleys Drive and New England Highway. These delays are driven by high traffic volumes, lack of capacity, multiple traffic signals, and congestion.

The scoped upgrades once delivered will reduce congestion at the key network junction that services the Port of Newcastle.

Jobs supported

- Job figures are not provided for planning or business case projects.

Project benefits

- Planning and design of future public investments.
- Improved road safety for all road users.
- Reduced congestion and improve travel times.
- Improved efficiency and network reliability.

Project timelines

- Planning works are expected to commence in late 2022 and be completed by late 2024.
