# Infrastructure Investment Program

Beenleigh Connection Road – City Road Intersection Upgrade, Beenleigh  
Queensland

### Australian Government Funding: \$4.0 million

Queensland Government Contribution: \$4.0 million  
**Total: \$8.0 million**

### Project description

This project will upgrade the intersection of Beenleigh Connection Road and City Road in Beenleigh to accommodate increased traffic flow through the intersection.  
This intersection currently experiences high levels of congestion and excessive queuing. Due to its proximity to the M1 Pacific Motorway (Exit 34), the intersection upgrade will improve the efficiency of the Exit 34 interchange, provide safer access for community and business, and improve freight movement reliability.

### Jobs supported

- This project is expected to support 24 direct and indirect jobs.

### Project benefits

- Reduced congestion and improve travel times.
- Improved network efficiency and reliability.
- Improved road safety for all users.

### Project timelines

- This project is expected to commence construction in early 2024 and be completed by mid-2025.
