

Australian Government

Infrastructure Investment Program

BUILDING OUR FUTURE

Intersection Upgrade Package
Australian Capital Territory

Australian Government Funding: \$5 million

Australian Government: \$5 million

ACT Government: \$5 million

Problem description

In the ACT between 2016 and 2018, vehicle collisions at intersections accounted for approximately 54% of all crashes, with at least one fatality in 2016 and 2017 and 6 fatalities in 2018.

The ACT Intersection Upgrade Package will improve road safety, pedestrian and cycle access and road network efficiency across the ACT.

The project will increase safety for all road users, provide network resilience during emergencies, support future land release/development and increasing travel demand and provide safe pedestrian and cycle access and reduce the likelihood of crashes and serious injuries.

Project Benefits

Benefits include:

- Improve road safety for all road users.
- Reduce congestion and improve travel times.
- Improve efficiency and network reliability.
- Improve accessibility and connectivity of road networks.

Project Timelines

Construction to commence late 2020, and be completed by late 2021.
