Infrastructure Investment Program

BUILDING OUR FUTURE

Regional Road Network Package
South Australia (SA)

Australian Government Funding: \$41.6 million

Australian Government: \$41.6 million
South Australia: \$10.4 million

Problem Description

This package will target pavement treatments, shoulder sealing and safety enhancements, to benefit the freight industry and regional communities across South Australia. Corridors include Stuart Highway in the Far North, Yorke Highway in the Mid North, the Dukes and Riddoch Highways in the South East, as well as several other key routes across South Australia.

Project Benefits

Benefits include:

- Improved road safety for all road users
- Improve connectivity between people with jobs and services, and goods with markets

Project Timelines

- Estimated start – June 2020
- Estimated completion – December 2021
