Australian Government Funding: $47.6 million
Australian Government: $47.6 million
South Australia: $11.9 million

Problem Description
This package of works will upgrade roads across South Australia to address identified road safety and fatigue management issues that contribute to vehicle crashes. Initiatives under these works include:

- Safety barrier installation;
- Audio tactile line marking;
- Road widening and sealing; and
- Other priority safety upgrades.

The improvements are designed to reduce fatalities and injuries resulting from vehicle crashes while maintaining or improving access and connectivity for goods, services and people.

Project Benefits
Benefits include:
- Improved road safety for all road users

Project Timelines
- Construction of the projects in this package are expected to begin in October 2020.
