

Australian Government Funding: \$71.5 million

Australian Government: \$71.5 million
Victorian Government: \$25.7 million

Problem Description

This package of works will deliver targeted road safety upgrades across regional Victoria including:

- Installation of safety barriers – upgrades at selected locations on the Western Freeway north of Ballarat, Omeo Highway and Midland Link Highway.
- Intersection safety upgrades at high-speed, high-risk rural intersections
- Intersection upgrades – construction of new roundabouts at selected locations including Midland Highway and Clyde Road near Bannockburn, Glenelg Highway/Eurambeen-Streatham Road and Traralgon Maffra Road and Moe Glengarry Road.
- Pedestrian and Safer Schools Initiative – Installing pedestrian safety improvements and electronic speed limit signs.

This package will benefit all road users through improving the safety features of a road and promoting positive road safety behaviour.

Project Benefits

Benefits include:

- Improve road safety for all road users.
- Improve efficiency and network reliability.
- Improve connectivity between people with jobs and services, and goods with markets.

Project Timelines

These projects are expected to commence construction from September 2020, with the majority of projects expected to be completed by late 2021.

TARGETED ROAD SAFETY WORKS - VICTORIA
