## **RE: Gujarat NRE Coking Coal Ltd submission to the Maldon to Dombarton Feasibility Link Feasibility Study**

Dear Sir,

Gujarat NRE Coking Coal Ltd (NRE) are the owners and operators of Wongawilli Mine. This is located West of Dapto, the associated leases and mine in part underlie the proposed new rail link.

On review of the proposal, NRE make the following comments:-

1. NRE don't believe there will be any impacts due to the rail line overlying any propose future workings,
2. NRE does however plan to increase production levels from the mine. This will be staged over a 4 to 5 year period from now. Peak production from the mine is expected to be 6mtpa. All of this product will go to PKCT.  
It is noted that NRE will not use the proposed Maldon to Dombarton link, however NRE does use the Rail Corp. line from West Dapto to PKCT. The ability of this section of rail to manage increased congestion is our principle concern.  
Discussions with Rail Corp have indicated that NRE's growth plans can be accommodated within the network capacity. NRE do however believe this will have to be reconfirmed as part of the Maldon to Dombarton Feasibility study.
