INFRASTRUCTURE INVESTMENT PROGRAM

South Australia

Through the October 2022-23 Budget, the Australian Government is investing \$660 million to deliver its election commitments for vital land transport infrastructure projects in South Australia, to improve safety and reduce travel times.

This includes committing to the Southern Expressway and Majors Road Interchange and Nationwide Freight Highway Upgrade Program (SA) as part of the Government's strategy to ease congestion, better connect regions, improve the safety of our roads and meet our national freight challenge.

This Budget follows a repositioning of the Infrastructure Investment Program to respond to market capacity constraints, creating a more sustainable infrastructure pipeline while continuing to support priorities for South Australia.

Key projects

Nationwide Freight Highway Upgrade Program (SA)

The Australian Government has committed \$400 million for a program of upgrades to the Dukes, Stuart and Augusta Highways in South Australia, in conjunction with a rolling package of upgrades to related roads in the Northern Territory and Western Australia. The delivery schedule will be determined in consultation with the South Australian Government.

prudently phased
infrastructure
investment for
South Australians

Marion Road – Anzac Highway to Cross Road

The Australian Government has committed \$200 million for the upgrade of Marion Road from Anzac Highway to Cross Road, in Adelaide. This is in addition to \$200 million from the South Australian Government.

The Marion Road – Anzac Highway to Cross Road project will help to improve freight productivity and access to freight corridors. The project will commence in late 2023 and is expected to be completed by mid-2026.

Southern Expressway and Majors Road Interchange

The Australian Government has committed \$60 million for the construction of new on/off ramps for the Southern Expressway at Majors Road, Adelaide, in addition to \$60 million from the South Australian Government.

The Southern Expressway and Majors Road Interchange will help to increase efficiency and ease congestion. The delivery schedule will be determined in consultation with the South Australian Government.
