INFRASTRUCTURE INVESTMENT PROGRAM

Tasmania

Through the October 2022-23 Budget, the Australian Government is investing \$570 million to deliver its election commitments for vital land transport infrastructure projects in Tasmania to improve safety and reduce travel times.

This includes upgrading the Mornington Roundabout and safety improvements for the Bass and Tasman highways as part of the Government's strategy to ease congestion, better connect regions, improve the access and safety of our roads and meet our national freight challenge.

This Budget follows a repositioning of the Infrastructure Investment Program to respond to market capacity constraints, creating a more sustainable infrastructure pipeline while continuing to support priorities for Tasmania.

Delivering on

infrastructure
priorities for
Tasmanians

Key projects

Tasmanian Roads Package

The Australian Government is investing \$540 million to upgrade key road corridors in Tasmania, including the Bass Highway, the Tasman Highway and the East and West Tamar Highways.

The Tasmanian Roads Package will improve safety for all road users, improve efficiency and network reliability, and improve freight productivity. The delivery schedule will be determined in consultation with the Tasmanian Government.

Mornington Roundabout Upgrade

The Australian Government has committed \$30 million in funding to upgrade the Mornington Roundabout in Hobart.

The Mornington Roundabout Upgrade will help to improve safety for all road users, reduce congestion, improve travel times and improve efficiency and network reliability. The

delivery schedule will be determined in consultation with the Tasmanian Government.
