Projects within the Bruce Highway Safety Package:

Bruce Highway – Targeted Safety Package

The package will deliver safety projects along the Bruce Highway north of Gympie. The package will install safety barriers, wide centre lines and audio tactile line marking, construct wider shoulders, increase run off areas and remove roadside hazards, reseal and rehabilitate pavement, construct new overtaking lanes and rest areas, and improve intersections, signage, sight lines and drainage.

Bruce Highway - Bruce Highway Safety Package

The package will deliver safety enhancements at priority sections along the Bruce Highway, including installation of wire-rope barriers, intersection upgrades, pavement widening, resurfacing, wide centre line treatments and culvert upgrades.

Bruce Highway - Overtaking Lanes

The package will deliver new overtaking lanes or upgrade of existing overtaking lanes on priority section of the Bruce Highway.

Bruce Highway - Additional Funding for Black Spots, Rest Areas and Safety Upgrades

The package will deliver high priority safety improvement works at various sections on the Bruce Highway including intersection upgrades, rest area upgrades and wide centre line treatments.

Bruce Highway - Roads Operations Improvement Projects

The package will provide Intelligent Transport System (ITS) infrastructure at various locations over the length of the Bruce Highway.
