

Northern Territory Black Spot Program 2025-26

Project Name	Suburb	Problem Description	Extended Project Description	Australian Gov't Funding	Local Government Area
Nightcliff Road and Progress Drive	Nightcliff	Four reported casualty crashes at the Progress Drive and Nightcliff Road intersection.	Improve sight lines and construct traffic islands. Modify the traffic islands on the northbound approach to the intersection, provide better deflection and improve sight lines to/from vehicles turning right from Progress Drive onto Nightcliff Road.	\$ 230,000	City of Darwin
School zone: Angguna Avenue and Aldidja Street intersection	Braitling	Speeding in the school zone.	Install radar speed check signs and traffic calming devices.	\$50,000	Alice Springs Town Council
School zone: Centralian Middle School, Milner Road	Gillen	Speeding in the school zone.	Install radar speed check signs and traffic calming devices.	\$50,000	Alice Springs Town Council
Batchelor School safety zone	Batchelor	Unaware of the school zone due to the higher vehicle speeds within the surrounding roads. Given the high pedestrian activity, this increases the risk of pedestrian-vehicle conflicts and potential crashes.	Install speed check solar signs either side of the main pedestrian crossing, install a raised crossing and reduce the existing mounded culvert to a street level culvert crossing in line with the raised crossing.	\$155,000	Coomalie Community Government Council

OFFICIAL

Robinson Road pedestrian facilities	Borroloola	RSA identified seven major pedestrian safety issues which included the school safety zone.	Installation of pedestrian paths, crossings and lighting.	\$380,000	Roper Gulf Regional Council
Gunbalanya internal road intersection	Gunbalanya	High volume of vehicle and pedestrian traffic interactions with minimal signs or line marking.	Intersection upgrade.	\$220,000	West Arnhem Regional Council
Girraween Road curve onto Daniel Circuit	Herbert	Tight nonstandard curve at the end of the long straight.	Realign the bend within the existing road reserve to improve the radius, install a crash barrier to provide an additional layer of protection for errant vehicles and provide improved signage, audio tactile line marking and retro-reflective raised pavement markers.	\$325,000	Litchfield Council
Cox Peninsula Road Street Lighting	Belyuen	Pedestrian activity in low light conditions in vicinity of the community.	Street lighting in the Belyuen community.	\$300,000	Belyuen Community Government Council
