

New South Wales

M1 Safety Improvements

Infrastructure Investment Program

Connecting Australians | Enriching Communities | Empowering Regions
Supporting Priority Land Transport Infrastructure Projects

Project Scope

This project will plan and deliver new and upgraded road crossovers and install intelligent transport system signage on the M1 between Wahroonga and Beresfield.

Key elements include upgrades which will improve safety, traffic operations, incident management, network reliability and travel efficiency.

Funding

Total Commitment: \$90 million

Australian Government Commitment: \$45 million

New South Wales Government Commitment: \$45 million

Benefits

- Increased capacity
- Improved network efficiency
- Improved productivity
- Supports regional connectivity
- Improved network reliability
- Improved safety
- Improved freight efficiency and reliability

Delivery Timeframes

Delivery is anticipated to commence in late 2027, with completion anticipated around mid-2031.
