# Bruce Highway Central Corridor

## Infrastructure Investment Program

As at 2025–26 MYEFO

<b>Total AGC</b>	\$1,566.8 million
<b>Corridor Description</b>	The Bruce Highway Central Corridor is between Gladstone and Bowen
<b>Benefits</b>	<ul style="list-style-type: none"><li>• Increasing freight efficiency</li><li>• Increasing safety</li><li>• Increasing flood immunity</li><li>• Increasing capacity</li></ul>
<b>Funding program</b>	Investment Road and Rail – Infrastructure Investment Program
<b>Transport mode</b>	Road
<b>State</b>	QLD

## Projects within the Bruce Highway Central Corridor:

### **Bruce Highway - Gladstone to Rockhampton Upgrades**

The project will deliver priority upgrades on the Bruce Highway on the section between Gladstone and Rockhampton.

### **Bruce Highway – Goorganga Floodplain Upgrade**

Improve flood immunity over the Goorganga Floodplain from north of the O'Connell River to south of Proserpine and construct northbound and southbound overtaking lanes with a divided carriageway configuration.

### **Bruce Highway - Goorganga Plains Upgrade - Plan and Preserve Corridor**

This project is undertaking planning for the Bruce Highway – Goorganga Floodplain Upgrade construction project.

### **Bruce Highway - Jumper Creek Upgrade**

The project upgraded the flood immunity of the Bruce Highway, near Jumper Creek, in between Pindi Pindi and Calen.

### **Bruce Highway - Knobels Road Intersection Upgrade**

This project upgraded a section of the Bruce Highway, at the intersection of Knobels Road and Nebia-Coningsby Road. Works included reconfiguration of the intersection layout, pavement widening, installation of street lighting, and correcting the road surface to reduce water pondage.

### **Bruce Highway - Mackay Northern Access Upgrade**

The project involved upgrading 4 kilometres of the Bruce Highway from Sams Road to Bald Hill Road. The project also delivered two new bridge overpasses of Davey Street, construction of a new two-lane bridge at Janes Creek and widening of the existing bridge to create four lanes, and various intersection upgrades.

### **Bruce Highway - Mackay Port Access - Slade Point Road**

The project will construct a new connection between the Bruce Highway at Glenella and Harbour Road at the Port of Mackay.

### **Bruce Highway - Mackay Ring Road - Stage 1**

The project constructed a ring road in Mackay between Stockroute Road and the intersection of the Bruce Highway and Bald Hill Road. The project also included early works for Bruce Highway - Mackay Port Access - Slade Point Road. This included concept designs and construction of two new underpass bridges and entry and exit ramps to connect the two projects with the co-located Mackay Northern Access Upgrade.

### **Bruce Highway - Rockhampton Northern Access Upgrade**

The project has duplicated the Bruce Highway between the Rockhampton – Yeppoon Road intersection and the Ramsay Creek Bridge through the northern Rockhampton suburb of Parkhurst. It delivered a four-lane urban roadway, including a new bridge over Limestone Creek, new road connections north and south of Boundary Road and new on-road cycle facilities.
