Australian Government

Department of Infrastructure, Transport, Regional Development, Communications, Sport and the Arts

Reporting and Program Management (RPM) information session

17 October 2025

Agenda

- Welcome

- RPM overview

- IMS to RPM – what new, similar and different

- Transition considerations

- RPM portal access

- RPM timeline

- Q&A

Reporting and Program Management

What	Why	Benefits

What
- RPM is a integrated business system to manage the Department's Infrastructure Investment Program (IIP)
- RPM uses a contemporary platform to manage the increasing scale and complexity of the IIP

Why

The Infrastructure Management System (IMS) is a bespoke legacy system and is not able to meet evolving business and reporting needs.

Benefits
- Improved accessibility and reliability of data
- Streamlined business processes
- Strengthened inter-governmental operations

RPM portal features

General portal features
Project visibility, receive notifications, upload documents

Applications
Submit applications (previously known as nominations) including supporting documents

Program and projects
Submit change requests to projects

Milestones
Submit milestone evidence

Reporting
Submit reporting including supporting documentation
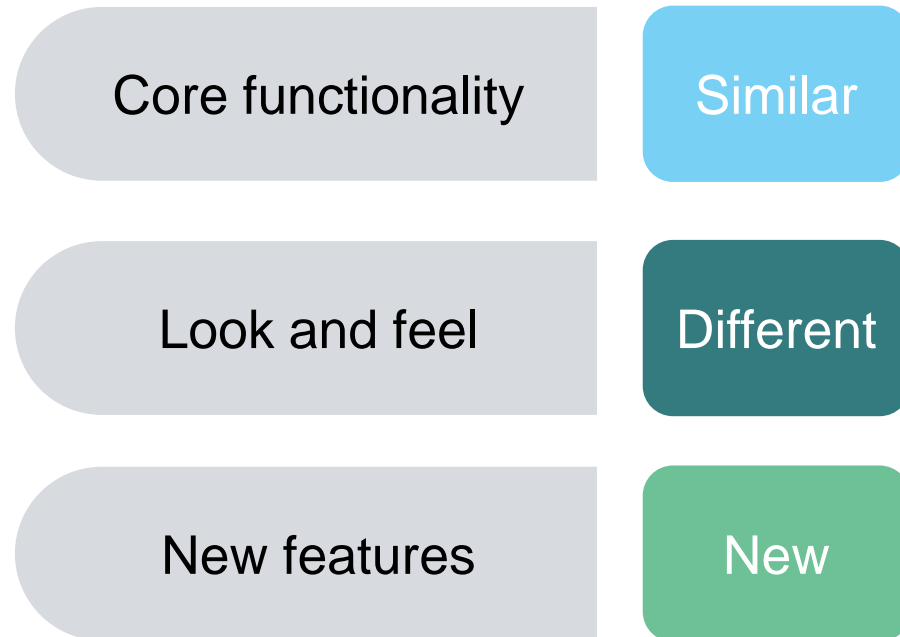

Payments
View payments received

Scope

- Safer Local Roads and Infrastructure Program, including active projects that were originally approved under the former Heavy Vehicle Safety & Productivity Program and Bridges Renewal Program

- Heavy Vehicle Rest Area Initiative

- Active Transport Fund

- Roads to Recovery

- Black Spots Program

Not in scope

- Local Roads and Community Infrastructure Program

IMS to RPM – what's new, similar and different

Core functionality — Similar

Look and feel — Different

New features — New

- Applications
- Change requests
- Progress reports
- Milestones
- Payments

IMS to RPM - homepage

IMS

RPM

RPM - new map feature

- Select point to point location

- Enter coordinates manually

- Upload GIS shape layer file

Transition considerations

Data migration

- All current project information will be migrated

What will not be migrated

- Historical reports including
  - RTR 23/24 annual report
  - RTR 23/24 expenditure

Data availability

- IMS will shutdown from 6:00pm, 20 November 2025

Local preparation considerations

- Management of your programs based on advice on what to do and when

- Who will have access to the portal

- Updating any local documentation with RPM details

- Advise other areas of the transition from IMS to RPM

- Download any required reports from IMS

RPM portal access

RPM portal access

Access available from 1 December 2025

Access process

- Complete and submit the RPM portal user access form by 7 November 2025

- Prior to RPM launch, you will receive:

  - RPM portal link

  - Password set up instructions

  - Multi Factor Authentication instructions

- Only RPM homepage will be visible prior to the launch

RPM timeline

RPM

August 2025	September 2025		September 2025	November 2025	November 2025	1 December 2025	
RPM awareness	RPM launch date	RPM preparation	Information sessions	RPM portal overview demonstration	RPM program demonstrations	RPM launch notification	RPM is live notification

RPM portal overview demonstration

General overview of RPM portal features

Recording available on RPM website

RPM program demonstrations
